Masajes y Artes Curativas

September, 1<sup>st</sup> 2020.

To whom it may concern,

I am writing this letter on behalf of **Ana Valeria Kruchowski** whom we have known since June 2014 when she has entered the Oasis Massage School in Buenos Aires, Argentina.

As we are School of Californian Massage and Healing Arts, and our main courses are Masseur and Therapist. So far Ana Valeria has taken the training of Californian Oasis **Masseur Levels 1** (72 hrs), **Level 2** (72 hrs), **Level 3** (72hrs) and **Deep Tissue** (72 hrs)

As a student, Ana Valeria has always demonstrated her availability to receive each job and exercise proposed in the classes as well as has shown her ability to capture all new material with ease. Her contact with both her peers and with her assistants and instructors has always been from her dedication to committed learning and the way of always being honest and present in her own way. Without any doubt, I am sure she will be a great contribution in any group she is in.

Sincerely,

**Roger Jackson**
