Saruda Arpornrat Hanes has completed

E-learning Course 1 on COVID-19

Stop the spread of infection and protect personnel working in
Swedish healthcare and social services

On behalf of the National Board of Health and Welfare, Karolinska Institutet has prepared two e-learning courses on COVID-19. The objective is to strengthen readiness and provide information on the most important principles and challenges involved in the work to prevent the spread of COVID-19. Focus is on principles of hygiene and the use of personal protective equipment (PPE).

This is the first course. After completing this course, you should have a basic understanding and knowledge of COVID-19, and basic knowledge of routes of transmission, symptoms, groups at risk, and how to protect yourself and others in the best possible way. The course may be considered basic knowledge to be used in combination with local guidelines at your workplace.

The course is aimed at all personnel within healthcare, social care, and social services within Region/County Council and Municipality, both medical staff and those otherwise affiliated with care activities.
