LEARNING OUTCOME

Knowledge

The certified masseur has:

- Specialised and vocationally relevant medical knowledge to work with patient-safe therapeutic treatments.
- Specialised knowledge of vocationally relevant examination and treatment methods, their effect, scope and use in effective and patient-safe therapeutic treatments.
- Detailed knowledge of other professions/roles in wellness and health care and be able to communicate and refer care needs of the patient to other professionals.
- Specialised knowledge of different types of vocationally relevant laws, regulations, rules of ethics, hygiene and working environment to ensure a safe and secure workplace for the certified masseur, the patients, and other personnel.

Skills

The certified masseur is able to:

- Plan and perform examinations and therapeutical treatments according to a patient's needs, goals and condition.
- Plan, perform, modify, and evaluate a therapeutic treatment plan.
- In his or her professional role plan and follow current laws, rules and regulations relating to examination, treatment, hygiene, sustainability, and patient safety.

Competence

The certified masseur is able to:

- Independently and under own medical responsibility examine a patient, perform therapeutical treatments, and evaluate the results in regard to each patient's condition depending on abilities, needs, desires and conditions of each patient considering underlying syndromes, diseases and injuries and develop, perform and evaluate a treatment plan.
- Independently and under own responsibility ensure that the business operations are conducted according to the ethical standards, current laws and the greatest possible patient safety.
- Understand medical texts, research reports, and participate in continuing education, specifically of the locomotor system, to maintain and develop his or her therapeutic competence skills as a certified masseur.
